## SIDRIVE IQ

Intelligence for optimal performance  
of drive systems

[siemens.com/sidrive-iq](https://www.siemens.com/sidrive-iq)

Get more out  
of your drives.

With SIDRIVE IQ, you benefit from the digital platform for optimizing your drive systems – for a new dimension in availability, serviceability, productivity, and efficiency.

# Can your drives learn to communicate intelligently?

Yes, they can.

Bring communication capability into your drive system.

With SIDRIVE IQ, your drive systems become communication-capable, or in other words **IQ Ready**: Our SIMOTICS CONNECT connectivity for motors and SINAMICS CONNECT for converters all the relevant data of a drive component and communicates it to MindSphere, the cloud-based, open IoT operating system from Siemens.

# Can intelligence make your drives perform even better?

**Yes, it can.  
Get intelligent application for  
data analysis.**

Our **MindSphere application** is your optimal tool for accessing all the status and operating data of your drive systems at any time. And there's more: With the SIDRIVE IQ, you can monitor and analyze your drive systems and derive possible optimization measures.

# Can services get even more out of your drives?

**Yes, they can.**

**Get reliable and efficient support.**

With SIDRIVE IQ Services, you'll also benefit from customized **services** in the future – from corrective measures for troubleshooting to offers for preventive maintenance and proactive services for optimized performance.

## On the path to the future and Industrie 4.0

With SIDRIVE IQ, you can digitally monitor and analyze your drive systems and take them to the next level of performance – for a successful company today and in the future.
