

The Siemens Municipality Suite (Automation & Digitalization)

The Siemens Municipality Suite (Electrification)

Municipality & DSO offering		Power Generation / Renewables	Power Distribution	Water / Wastewater	Natural Gas Distribution	District Heating / Cooling	Street Lighting	Transportation Infrastructure
Electrification	Power supply (turnkey) solutions	Grid connection s/s Distribution s/s Electr. BoP	Power quality Compact s/s					Grid connect. s/s Distribution s/s Compact s/s
	Energy storage	Power-to-gas and battery solutions						Power-to-gas and battery solutions
	Transformers	Large power transformers		Medium power transformers				Medium power transformers
		Distribution transformers						
	High-voltage switchgear	AIS switchgear GIS switchgear						AIS switchgear GIS switchgear
	Medium-voltage switchgear	Generator swgr	Outdoor systems	AIS switchgear GIS switchgear				Outdoor systems AIS switchgear GIS switchgear
	Low-voltage equipment	MCC Busbar systems	Fuses	Motor control centers (MCC) Air circuit breakers (ACB) and molded-case circuit breakers (MCCB)				MCC Busbar systems
Product related and value added services	Network analysis and consulting							
	Installation and commissioning							
	Repair, maintenance, monitoring and diagnostics							
	Substation extension, refurbishment and modernization							
	Service contracts, outsourcing of operation and maintenance (with or without performance KPIs)
